

ENA Chapter 438 & Trauma Regional Advisory Council-V Sponsored Emergency Nurse Pediatric Course (ENPC) New 4th Edition

Course Description: ENPC is a 2 or 3 day course that has been created by the Emergency Nurses Association and presents a standardized approach with core-level knowledge and psychomotor skills associated with the care of children. It will enhance the nurse's ability to rapidly and accurately assess the pediatric patient's responses to illness or an injury event. It is anticipated that the use of the knowledge and skills learned in ENPC will ultimately contribute to a decrease in the morbidity and mortality associated with pediatric emergencies. **Email required--to watch video content before attending class. Please provide your individual email rather than work email as some facilities may not allow thru work emails.**

Course Date: Aug. 20, 21, & 22, 2013
